

## Coronavirus Update

Coronavirus 2019 acute respiratory disease (cNoV 2019) is a flu-like virus that originated in Wuhan, Hubei Province, China in late 2019. Symptoms include fever, cough, and difficulty breathing, as well as pneumonia and kidney failure in severe cases. The majority of cases have reported mild symptoms, according to Alberta.ca. The virus has spread to 18 countries as of press time with 82 confirmed cases outside of China, including 3 confirmed cases in Canada. Note that cNoV 2019 is just the most recent strain of coronavirus, just like each flu is a different strain.

In a situation update from the World Health Organization (released January 29, 2020), there are several steps you can take to “reduce the general risk of transmission of acute respiratory infections,” which include:

- Avoiding close contact with people suffering from acute respiratory infections.
- Frequent hand-washing, especially after direct contact with ill people or their environment.
- Avoiding unprotected contact with farm or wild animals.
- People with symptoms of acute respiratory infection should practice cough etiquette (maintain distance, cover coughs and sneezes with disposable tissues or clothing, and wash hands).

An Emergency Committee with the World Health Organization re-convened on January 30, 2020, under the direction of Director-General Dr. Tedros Adhanom. The Committee’s role is to give advice to the Director-General, who makes the final decision on the determination of a Public Health Emergency of International Concern (PHEIC). In a press statement on January 30, 2020, Dr. Adhanom declared the outbreak an international emergency, saying “Our greatest concern is the potential for the virus to spread to countries with weaker health systems, and which are ill-prepared to deal with it.”

Chinese Canadians have noticed an increase in racist incidences due to misinformation and rumours surrounding the virus. “I think there is so much panic in the community, people are not acting with evidence and fact, people are

acting with fear and panic,” said Dr. Joseph Wong, founder of Chinese Canadian National Council in an interview with Global News. “Chances of contracting cNoV 2019 are still extremely low.” <https://globalnews.ca/news/6478602/chinese-canadians-racism-coronavirus/>

Along with racism, there is other misinformation surrounding the genesis and spread of the virus. To avoid false information, make sure it is coming from credible sources, such as the World Health Organization, Canada Health, Alberta Health, or real Doctors. Ermine-skin Cree Nation will keep the community informed of the facts in a timely fashion.

While it is important to do all you can to prevent the spread of new viruses like cNoV 2019, don’t raise a panic within your community or family. The regular flu is much more deadly than the coronavirus. “A novel outbreak will always command more attention than a common illness, and the coronavirus is a serious health threat. But our newfound hyper-vigilance about infections might be more helpful if we could redirect some of it toward influenza — a significantly deadlier virus that strikes every year,” says Health Care Business reporter Bob Herman from Axios.com. This is a perspective shared by many Doctors and scientists.

To put that in perspective, the new strain of coronavirus has killed 170 people out of 7736 total cases, but the flu has at least 15 million cases so far this flu season (just in the USA), with 8,200 people dying due to flu complications. The best option for prevention and safety is to get a flu shot. Note that flu shots do not cause the flu, they give your body time to create antibodies for the most likely flu virus to spread in a given year. Flu shots are suggested every year as the virus mutates over time. If you get the flu after you get a shot you were already exposed to the virus before your immune system made antibodies.

Facilitator Pat Rivard

Violence Threat Risk Assessment Level II Training

**V**iolence Threat Risk Assessment (VTRA) Level II Training took place at the Jonas Applegarth Theatre at Samson High School on January 21 & 22, 2020. The training was hosted by Ermineskin Community Wellness & Samson Cree Nation Finance Department. This was a continuation of the VTRA Level I Training that the teams took in September last year and was conducted by North American Center for Threat Assessment and Trauma Response facilitator Pat Rivard. Several agencies from Ermineskin & Samson are completed the training for the sole purpose of conducting threat assessments for prevention and intervention of violence within the community. The information presented was very informational and will benefit the community immensely.

Some of the key topics of Violence Threat Risk Assessment (VTRA) discussed pertained to: VTRA is not counselling -> It is data collection  
The better the DATA, the better the ASSESSMENT, the better the INTERVENTION

You can't do VTRA without understanding Trauma

VTRA is meant to be helpful, NOT hurtful  
Adverse Childhood Experiences (ACE) and their connection to developing diseases because of traumatic stress

"Attention seeking" is CONNECTION seeking

The more OPEN our communities are, the HEALTHIER the community will be.

Rationalize -> Rational + Lies (what are the rational lies people are telling themselves?)

The opposite of ADDICTION, is CONNECTION  
Instructor Pat Rivard was an amazing mentor in this training. We were very blessed to have had him train our community members in VTRA Training. "Grounded in his professional experiences as a social worker, which included a 6 year career in Child Welfare and subsequently a two year career as a family counselor, provides an in-depth understanding of the foundational practices of VTRA. Recently, Pat transitioned from an 18 year career in Education where he served students and communities as a teacher, Principal and 9 years in senior leadership in two school divisions in Alberta. Pat received an award from NACTATR for his outstanding leadership in the advancement of VTRA practice demonstrating a tireless commitment towards providing safe and caring environments for students and community. Pat is in his third year of being a national trainer for NACTATR." After the conclusion of the training, Pat was gifted with a Ribbon Shirt to show our appreciation for sharing his knowledge with us. <https://www.nactatr.com/team/patrivard.html>

Congratulations to Ermineskin Elementary School in your fundraising efforts for Australia!

Ermineskin Elementary School

9 mins · 🌐

We are happy to announce that we made \$845 for the Australian Red Cross with our hot dog fundraiser last week! Way to go staff, students and parents! Thank you to 4S for organizing this event and for thinking about helping others outside of our community! Great job!

## Ermineskin Elementary School Celebrates Maskwacis

The dedicated staff at the Ermineskin Elementary School hosted an Elders' Tea at their school on Friday, January 24, 2020 to showcase to the Elders of Maskwacis of how EES celebrates the culture within the school. Each grade at the school took a topic and created beautiful diagrams, crafts and pictures to showcase their love for our Nehiyaw ways. Grade 3 Educator Ms. Nanaquawetung stated: "We wanted to show our knowledge and pride for our Cree culture." Topics included: pahkwesikan, ribbon skirts, moccasins, paskwaw mostos, Treaty No. 6 information, and tipi teachings. The Elders were treated to tea and bannock whilst they basked in the knowledge and food

provided by the children. Elder Rose Makinaw gleamingly stated "I looked at the displays and the children are learning quite a lot. This is really lovely. You can see the awasisak really appreciate the Elders being here."

have permission to be on Neyaskweyahk land. Any concerns or questions about these organizations, please contact the Neyaskweyahk DCCP.

Please note pet owners are also responsible for the burial and removal of their own deceased pets. Dogs that have died of unknown/unnatural causes, diseases, and/ or infections need to be investigated and disposed of properly by an animal control officer. There will be a fee incurred to the owner for the cremation of their deceased dog.

When reporting a stray please include a complete description and a picture (if possible). If you have a diseased, distressed, or dangerous dog and/ or would like to surrender, please call Jacob Wilder, Animal Control Officer, of the Neyaskweyahk Dog Care & Control Program at 780.585.2004 (office) or at 780.335.7997 (mobile) to leave a message.

## Important Notice from Alberta.ca

**R**ecently, false information has been circulating about supposed changes to Alberta's distracted driving laws coming into effect on February 1. These rumours around new rules and stricter penalties are false. Alberta's distracted driving laws and penalties are **not changing** at this time.

The distracted driving law applies to anyone driving in Alberta. It restricts drivers from doing any of the following, even while stopped at red lights:

- using hand-held cell phones
- texting or e-mailing
- using electronic devices such as laptop computers, video games, cameras, video entertainment displays and programming portable audio players such as MP3 players
- entering information on GPS units
- reading printed materials in the vehicle
- writing, printing or sketching
- personal grooming such as brushing and flossing teeth, putting on makeup, curling hair, clipping nails or shaving

Police can also charge you if you permit anything to:

- occupy the front seat of your vehicle that interferes with your access to the vehicle controls and the safe operation of the vehicle
- obstruct your clear vision in any direction

For the safety of pets, drivers and all road users, it is recommended that pets are secured in appropriate pet carriers.

The penalty for distracted driving in Alberta is a \$287 fine and 3 demerit points. Activities that are **not** specifically restricted under the law are:

- using a cell phone in hands-free mode – the device is not held in the driver's

hand and is activated by voice or a single touch to the device

- using an earphone – if it is used in a hands-free or voice-activated manner
- drinking beverages – coffee, water or pop
- eating a snack
- Smoking
- talking with passengers
- listening to a portable audio player – as long as it is set up before you begin driving
- calling emergency services such as 9-1-1 with a hand-held cell phone
- using two-way radios or hand-held radios (also known as CB radios) when a driver is required to remain in contact with one's employer, such as when escorting oversized vehicles or when participating in search, rescue and emergency management situations
- permitting the display screen of the following:
  - ◊ a GPS navigation system – as long as the system is affixed to the vehicle and programmed before you begin driving or the system is voice activated. You cannot hold the unit or manually enter information while driving
  - ◊ a collision avoidance system
  - ◊ a gauge, instrument, device or system that provides information about the vehicle's systems or the vehicle's location
  - ◊ a dispatch system for transporting passengers
  - ◊ a logistical transportation tracking system that tracks vehicle location, driver status or the delivery of goods for commercial purposes
  - ◊ an alcohol ignition interlock device

## Nehiyawewin 2020 Cree Language Programs

**M**askwacis Education Schools Commission is offering Daytime and Evening Cree Language Programs for anyone who is interested in learning Nehiyawewin (Cree)!

Registration is open now and closes February 17, 2020, with a maximum of 25 students per program. Oral language proficiency assessments will be conducted upon registration to ensure optimal learning for participants.

The two daytime programs will be a 45 minute Parents and Tots Nehiyawewin Program, and Kehtehayahk Pe Kiyokek, which offers Elders a place to visit and socialize once a week at the Nehiyawew Kamik.

The 6 evening programs will be an online Syllabic class, Introductory Cree, Beginner Cree, Intermediate Cree, Advanced Cree, and Family Nights. The programs will be offered at the Nehiyawew Kamik (formally the Cree Resource Building) in Ermineskin, with other sessions offered at the Ehpewapak Alternate School, Samson Primary School, Louis Bull Head Start Building, Mimiw Sakahikan, and Montana School.

The sessions will be 12 weeks, running from February 3 until April 30, 2020.

For more information, please contact Jolene Rain at 780-585-2879.

Above: Edmonton Oilers player #74 Ethan Bear with his new beaded medallion gifted by Deidre Makinaw and Stuart Whitebear. Too deadly!
